I provide advice and support as you make applications for Lasting Powers of Attorney (LPA)

I draft certify and witness your LPA applications to the Office of the Public Guardian (OPG). I attend you in your home by appointment. My first visit enables me to avoid identity fraud, confirm your capacity, discuss and receive the detail of your instructions. I then report to you in writing summarising your circumstances and needs.

Once these are confirmed I draft your applications for LPA (Lasting Powers of Attorney). Separate applications are needed one for property and finance and another for health and welfare. My second appointment enables me to supervise completion of your LPA applications to the OPG.

The Office of the Public Guardian takes up to 3 months or a quarter to register your LPAs; before this they cannot be used. Please therefore think about making your LPA applications two quarters (6 months) before you might need them.

I am a Professional Certificate Provider for Lasting Powers of Attorney and hold the Foundation Certificate in Dementia Awareness awarded by the Alzheimer's Society. I am a Dementia Friend.

Who will speak for you if an operation did not proceed as planned?

I charge £250 per individual for the above. The Office of the Public Guardian (OPG) charges are extra and these amount to £82 per LPA although the OPG may reduce or waive these if they are satisfied you comply with their concept of having limited circumstances.

I also write Wills if you don't have one (from £80).

In essence you don't have a Will if you die without one.

I cover Bucks, Berks and Oxon North West Surrey and West Middlesex.
